

“Dirty Paws” Mini Book

1. Cut out each strip along the solid line. The blue box is the front cover.

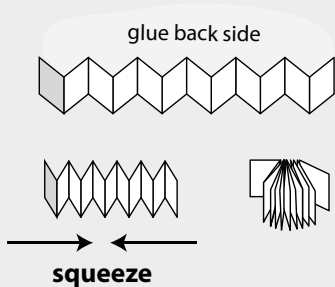

2. Glue the strips together in order to form one long strip. Make sure the strips are carefully aligned!

3. Fold like an accordion.

4. Put glue on the entire **back side** of the strip and glue the pages together.

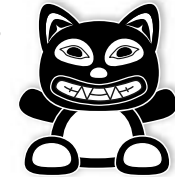

Dirty Paws

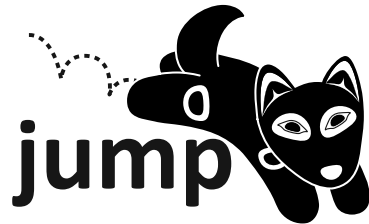

by Dr. Michiko

My name is **Jaida**,
pronounced like
“Haida” but with a
“J” and this
is my story.

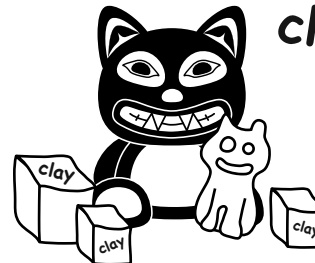

1

jump, jump,

Play all day!
Little Jaida **LOVES**
clay!

Paint a **picture**,
carve a **pole**

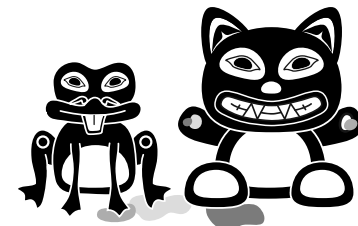

2

LOOK there,
a rabbit hole!

Play with **friends!**

3

Let's explore, let's pretend!

But, Little Jaida made one

BIG FLAW

She forgot to wash

her little paws!

4

The Longhouse was covered in paint and clay...

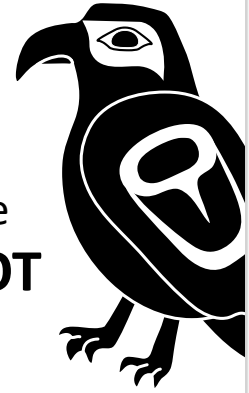

and poor Little Jaida had to CLEAN all day

Little Jaida was very sad

but Big Eagle was NOT mad...

5

See the paint trail?

From here to there, it's EVERYWHERE!

But, something else had also spread...

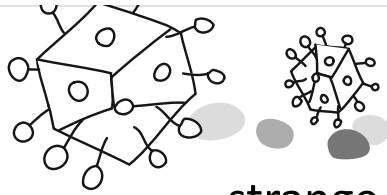

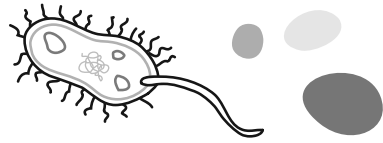

those little "BUGS" that we so dread!

6

Little creatures called
bacteria and
viruses

strange
little critters
that look like
bundles of wires

**WHERE?
THERE!**

They are
everywhere!

You **cannot** see them
with your eye because
they are much smaller
than a **baby fly**.

7

These
little germs
can make you
SICK!

This is why
we do **NOT** lick!

To **STOP** these
critters in their
tracks...

**Wash your
hands** and
don't be slack!

8

SCRUB
SCRUB
SCRUB

with **soap**
and warm
running
water

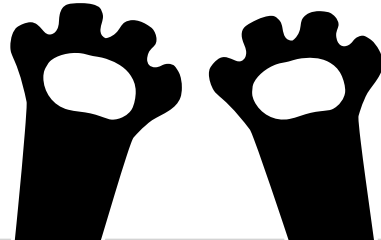

Sing **HAPPY
BIRTHDAY**
but watch out,
the water might
get **hotter!**

9

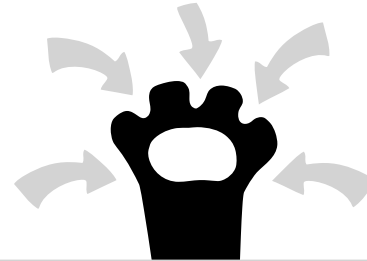

Don't forget to wash **BOTH** paws!

LEFT and **RIGHT**,

top to bottom,
in between and...

wipe with **cotton!**

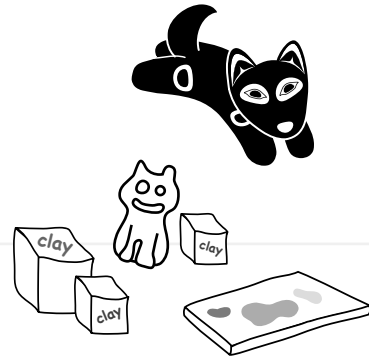

10

With **clean paws**
you can go and

PLAY!

But, don't forget
to **wash** them

several times
throughout the day.

Little Jaida learns
the importance of
washing her paws
and about bacteria
and viruses.

This is the last strip.
It is the back cover.
